MTC 0 will be located inside the Rugby Club.

Due to the proximity of residential properties to the start venue, competitors are kindly requested to refrain from running their engines where at all possible whilst at the start venue. In order to minimise noise, competitors will obtain their time and signature at MTC 1 inside the rugby club and then return to their car to proceed immediately to TTC 2. This is to avoid a queue of cars at the start venue, thus reducing noise levels. Plenty of time is allowed to reach TTC 2.

This is not a spectator event

Sorry to be a bore but the PR crews have done a good job and we hope that these roads can be used again. Noise and driving standards **will be checked on throughout the night in the sensitive areas**. I wish all competitors a safe night's motor sport and do not wish to disqualify any competitor unfairly. All the Marshals have the authority to fairly disqualify a competitor for excessive noise. I have given an undertaking to some residents along the route so that this event can give you enjoyment without disturbing them (I hope).
